PROFILE SUMMARY

Information Technology graduate and aspiring Full-Stack Developer with hands-on experience building scalable web applications using the PERN/MERN stacks. Proficient in designing RESTful APIs, implementing secure authentication protocols (Clerk, RBAC), and crafting responsive user interfaces. Passionate about leveraging modern Software Engineering methodologies to solve complex, real-world problems.

TECHNICAL SKILLS :

Languages: JavaScript, HTML5, CSS, Core Java

Frontend: React.js, Next.js, Tailwind CSS

Backend: Node.js, Express.js

Database: MySQL, PostgreSQL, MongoDB

Tools & Concepts: REST APIs, Authentication, Responsive Design, Git, GitHub, Postman, Docker

PROJECTS EXPERIENCE

AIzen (AI SaaS Application)

Live : aizen-mu.vercel.app

GitHub: <https://github.com/manasiswami0827/AIzen>

Tech Stack: PostgreSQL, Express.js, React.js, Node.js, Tailwind CSS, AI APIs

- Architected a full-stack SaaS platform using the PERN stack, implementing role-based access control (RBAC) that reduced unauthorized API access attempts to 0%.
- Integrated Google Gemini/OpenAI REST APIs using Node.js to enable real-time, dynamic text generation.
- Deployed the application on Vercel, configuring environment variables and secure API endpoints for production readiness.

Trackify (Expense Tracker Web Application)

Live : project-tau-cyan.vercel.app

GitHub: <https://github.com/manasiswami0827/Trackify>

Tech Stack: Next.js, Tailwind CSS, Clerk Authentication

- Engineered a fully responsive financial management web application using Next.js and Tailwind CSS, allowing users to log, track, and manage daily personal expenses seamlessly
- Implemented secure user authentication and session management by integrating Clerk Auth, safeguarding user data and endpoints.
- Developed dynamic data visualization dashboards using interactive charts, improving user data-interpretation efficiency by 30% through intuitive UI workflows.

Grocery Delivery Website Application(frontend)

Tech Stack: React.js, JavaScript, HTML5, CSS

- Designed 10+ reusable React components to build a scalable frontend architecture, reducing code redundancy and improving development velocity.
- Built seller dashboard features to add, update, and manage product listings efficiently.
- Developed a responsive grocery delivery web application using React.js, enabling seamless product browsing, cart management, and order placement.

EDUCATION

B.Tech in Information Technology | M.S. Bidve Engineering College, Latur | 2026 | CGPA: 7.39

CERTIFICATIONS

Oracle AI Foundations Associate – Oracle
